Coronavirus: Researchers develop new rapid and reliable detection method

Commercially available mass spectrometers can reliably detect the SARS-CoV-2 corona virus. In the journal “Clinical proteomics” researchers from the Martin Luther University Halle-Wittenberg (MLU) present a new method which employs equipment that is already being used in hospitals and laboratories to detect bacterial and fungal infections. It takes just two hours from swab to result. According to the team, the approach can also be easily adapted to detect other pathogens and could thus help in future pandemics.

The new method requires a nasal or throat swab. The sample needs to be prepared before it can be analysed by a mass spectrometer, which takes only a few seconds. In MALDI-TOF mass spectrometry, a laser pulse is used to transfer the sample to the gas phase - then the mass of the individual components is measured. “This allows us to directly and unambiguously measure individual virus particles of

the coronavirus. Thus false-positive results can be ruled out,” says Professor Andrea Sinz from the Institute of Pharmacy at MLU, who specialises in mass spectrometry and proteins. Her team was already able to show in July 2020 that mass spectrometers are generally capable of detecting SARS-CoV-2. However, at this time, the method was still time-consuming and required very high-end equipment.

The advantage of the new method is that MALDI-TOF mass spectrometers are already being used in many laboratories and clinics to diagnose bacterial or fungal infections and are thus readily available. The devices can even distinguish between different variants of the virus. However, the method is not yet as sensitive as polymerase chain reaction (PCR), the most sensitive corona test to date. This means that not all infections may be detected when there is a very low viral load. On the other hand, it is much faster and more flexible. “In acute

**Matthias Tschöp**

phases, the method would make an ideal addition to PCR because we would be able to analyse a lot of samples very quickly. Rapid and reliable results may make it easier to contain outbreaks,” explains Lydia Kollhoff, lead author of the study. Moreover, the approach could be adapted rather easily to other pathogens in future pandemics and supplement PCR testing.(DFG, German Research Foundation/VVS Manian/ANFS). A New Era in the Fight against Obesity and Diabetes Matthias Tschöp receives Ernst Schering Prize 2023

The Schering Stiftung awards the Ernst Schering Prize 2023 to Prof. Dr. Matthias Tschöp for his groundbreaking work in metabolic research. He is being honored for his discovery of the hunger hormone ghrelin, his dissection of the gut-brain signaling pathways, and his discovery of new classes of therapeutic agents that for the first time make it possible to normalize body weight and blood sugar levels in patients with obesity.

The physician-scientist Matthias Tschöp receives the Ernst Schering Prize 2023 for his pioneering discovery of highly effective anti-obesity drugs. For centuries, physicians have searched for drugs to regulate body weight in patients with excessive obesity. Besides his discovery in 2000 of the hunger hormone ghrelin, Tschöp and his long-term collaborator, biochemist Richard DiMarchi, combined several hormones into a single molecule, creating the therapeutic class of the so-called polygonists. The

first polygonist has already been approved by the FDA and the European Commission, and more than ten additional polygonists are currently in clinical trials, promising a new era in metabolic medicine. For the first time, widespread diseases such as obesity and diabetes can be effectively treated with these drugs, thereby significantly reducing the risk of developing diabetes – a scientific achievement that has long been thought impossible.

A seven-member jury consisting of international scientists selected Tschöp’s research from a large number of outstanding nominations. The 50,000-euro Ernst Schering Prize is one of the most prestigious German science awards. It is given annually by the Schering Stiftung and honors scientists worldwide whose pioneering research has yielded new, inspiring models or led to fundamental shifts in biomedical knowledge. The chairman of the Foundation Council of the Schering Stiftung, Prof. Dr. Max

Löhning, said: “Prof. Dr. Matthias Tschöp has contributed a number of highly significant basic and clinical findings that have helped transform metabolic research. Through his innovative research, he developed agents that ring in a new era in the fight against obesity and diabetes. He has become a defining, inspirational personality for new generations of physician-scientists, both in Germany and worldwide.”

Prof. Dr. Günther Wess, former CEO Helmholtz Munich and a long-term colleague of Matthias Tschöp, said about the award: “Matthias Tschöp is passionate about searching for new principles and paradigm shifts. There is no room for mediocrity in his research. He knows how to get his collaborators excited about and engaged in his ambitious goals.” As part of the award ceremony, Wess will talk with Matthias Tschöp about the laureate’s research, as well as about innovation processes in Germany. (V.V.S.Manian/ANFS)

Spectroscopy adds innovation to scan results

Medical imaging via X-rays, CT scans, MRIs and ultrasounds provide healthcare professionals with unique perspectives and a better understand-

ing of what’s happening inside a patient’s body. Using various forms of waves, these machines can visualise many unseen ailments and diseases.

This imaging is beneficial for healthcare professionals to make correct diagnoses, but the added insight of spectroscopy provides even more detail. Spectroscopy offers a means to identify biomolecules within specimens through their characteristic signatures for absorption in the electromagnetic spectrum.

Now, researchers at UBC Okanagan’s School of Engineering want to take that diagnostic imaging a step further.

By recognizing the benefits of imaging and spectroscopy, the researchers in UBCO’s Integrated Optics Laboratory (IOL) are now developing imaging systems that apply terahertz radiation. Terahertz radiation lies in the electromagnetic spectrum, with frequencies between radio and visible waves. This opens the door to fast and accurate terahertz characterizations of biological specimens - and can ultimately help with the creation of effective technologies for cancer detection.

“By working with terahertz radiation, we’re able to glean details on the underlying characteristics

of biological specimens,” explains Alexis Guidi, a School of Engineering master’s student and lead author of a new study published in Scientific Reports. “This insight comes from the nature of terahertz radiation, which is intricately sensitive to the biomolecular make-up of cells.”

Nonetheless, according to Dr. Jonathan Holzman, IOL Principal Investigator and Electrical Engineering Professor, there are pressing challenges in developing these terahertz systems.

“The characteristics of terahertz radiation that make it an effective probe of biomolecules, in terms of its long wavelengths, also make it challenging to focus and resolve in images. Our recent work solved this by demonstrating terahertz spectroscopy can show a resolution approaching the cellular scale.”

The researchers plan on applying their findings in emerging areas of medical diagnoses, with a particular emphasis on carcinogenesis - the process by which healthy cells become cancerous.

Gene therapy to treat alcohol addiction

A form of gene therapy currently used to treat Parkinson’s disease may dramatically reduce alcohol use among chronic heavy drinkers, researchers at Oregon Health & Science University and institutions across the country have found.

The study in nonhuman primates showed that implanting a specific type of molecule that induces cell growth effectively resets the brain’s dopamine reward pathway

Bacteria draw from an arsenal of weapons to combat the drugs intended to kill them. Among the most prevalent of these weapons are ribosome-modifying enzymes. These enzymes are growing increasingly common, appearing worldwide in clinical samples in a range of drug-resistant bacteria.

Now scientists have captured the first images of one important class of these enzymes in action. The images show how the enzymes latch onto a particular site on the bacterial ribosome and squeeze it like a pair of tweezers to extract an RNA nucleotide and alter it.

The advanced technique of cryoelectron microscopy made the ultra-high-resolution, three-dimensional snapshots possible.

“Seeing is believing,” says Christine Dunham, Emory

professor of chemistry and co-corresponding author of the paper. “The minute you see biological structures interacting in real life at the atomic level it’s like solving a jigsaw puzzle. You see how everything fits together and you get a clearer idea of how things work.”

The insights may lead to the design of new antibiotic therapies to inhibit the drug-resistance activities of RNA methyltransferase enzymes. These enzymes transfer a

small hydrocarbon known as a methyl group from one molecule to another, a process known as methylation.

“Methylation is one of the smallest chemical modifications in biology,” says Graeme Conn, professor of biochemistry

in Emory’s School of Medicine and co-corresponding author of the paper. “But this tiny modification can fundamentally change biology. In this case, it confers resistance that allows bacteria to evade an entire class of antibiotics.”

**NOTICE OF THE 32ND AGM – E-VOTING AT THE AGM & BOOK CLOSURE**

Notice is hereby given that the **32<sup>nd</sup> Annual General Meeting (AGM)** of the Company will be held on **Thursday, 7<sup>th</sup> September 2023 at 11.30 A.M.** (IST), through video conference / other audio visual means in compliance with General Circular numbers 20/2020, 14/2020, 17/2020 and all other applicable laws and circulars Issued by the Ministry of Corporate Affairs (MCA), Government of India and Securities and Exchange Board of India (SEBI) to transact the businesses that is mentioned in the Notice of the Meeting.

In compliance with the above circulars and owing to the difficulties involved in dispatching the physical copies, kindly note that electronic copies of the Notice of the AGM and Annual Report for FY 2022-2023 will be sent to all the Members whose email addresses are registered with the Company/ Depository Participant(s) within the prescribed timeline. The notice of the 32<sup>nd</sup> AGM and Annual Report for FY 2022-2023 will also be made available on the Company's website at [www.iykot.com](http://www.iykot.com), Stock Exchange websites and on the depositories' website. These documents can also be downloaded from [www.iykot.com](http://www.iykot.com) as well as on the website of Bombay Stock Exchange.

Members holding shares in dematerialized mode are requested to register their email addresses and mobile numbers with their relevant depositories through their depository participants. Members holding shares in physical mode are requested to furnish their email addresses and mobile numbers with the Company's Registrar and Share Transfer Agent M/s. Cameo Corporate Services Limited (herein referred as RTA) Company shall provide remote & E-Voting facility to all its Members to cast their votes on all resolutions set out in the Notice of the AGM. Additionally, the Company is providing the facility of voting through E-Voting system during the AGM. Detailed procedure is provided in the Notice of AGM.

Notice is further given that, pursuant to the provisions of Section 91 of the Companies Act, 2013, the Register of Members and Share Transfer books of the Company will remain closed from Friday, 01<sup>st</sup> of September 2023 to Thursday, 07<sup>th</sup> of September 2023 (both days inclusive) for the purpose of Annual General Meeting.

In compliance with Regulation 44 of SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Section 108 of the Companies Act, 2013, read with Rule 20 of the Companies (Management and Administration) Rules, 2014, the Company is providing its members, facilities for remote e-voting. Members holding shares either in physical form or dematerialised form, as on the cut-off date on Thursday, 31<sup>st</sup> of August 2023, may cast their vote electronically on the businesses set forth in the Notice of 32<sup>nd</sup> AGM through the electronic voting system, from a place other than the place of venue of the AGM (remote e-voting).

All the members are informed that:

I. The businesses as set forth in the Notice of 32<sup>nd</sup> AGM may be transacted through e-voting

II. The remote e-voting shall commence on 04<sup>th</sup> September 2023 (9.00 a.m.)

III. The remote e-voting shall end on 06<sup>th</sup> September 2023 (5.00 p.m.).

IV. The cut-off date for determining the eligibility for e-voting is Thursday, 31<sup>st</sup> of August 2023. Any person, who acquires shares of the company and becomes member of the company after the dispatch of Notice and holding shares as of the cut-off date i.e., Thursday, 31<sup>st</sup> of August 2023 may obtain login ID and password by sending an email [murali@cameoindia.com](mailto:murali@cameoindia.com) However, if a person is already registered with for remote e-voting, then existing user ID and password can be used for casting vote.

V. Members holding shares in physical form who have not registered their mail addresses with the Company/Depositories may obtain the Annual Report and log in and password for E-voting providing the below necessary details:

i) For Physical Shareholders-Please provide necessary details like Folio No., Name of the shareholder, scanned copy of the share certificate (front and back), PAN (self-attested scanned copy of PAN card), AADHAR (self-attested scanned copy of AADHAR card) by email to Company at [info@iykot.com](mailto:info@iykot.com) or to Registrar & Share Transfer Agent at [murali@cameoindia.com](mailto:murali@cameoindia.com)

ii) For Demat Shareholders-Please provide Demat account details (CDSL-16-digit beneficiary ID or NSDL-16-digit DPID + CLID), Name, Client master or copy of consolidated Account statement, PAN (Self attested scanned copy of PAN card), AADHAR (self-attested scanned copy of AADHAR card) by email to Company at [info@iykot.com](mailto:info@iykot.com) or with your respective Depository Participant (DP)

However, if a person is already registered for e-voting then existing user ID and password can be used for casting vote.

If you have any queries or issues regarding attending AGM & e-Voting from the CDSL e-Voting System, you can write an email to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com)

VI. Members eligible to vote may note that:

a) The remote e-voting module shall be disabled after 5.00 p.m. on Wednesday, 06<sup>th</sup> September 2023 and once the vote on a resolution is cast by the member, the member shall not be allowed to change it subsequently;

b) The members who have cast their votes by remote e-voting prior to the AGM may also attend the AGM but shall not be entitled to cast their voted again; and

c) A person whose name is recorded in the register of members or in the register of beneficial owners maintained by the depositories as on the cut-off date only shall be entitled to avail the facility of remote e-voting.

d) If a member cast votes by both modes, then voting done through e-voting shall prevail and e-voting during the AGM shall be treated as invalid.

VII. The company has appointed Ms. Lakshmmi Subramanian, Senior Partner, M/s Lakshmmi Subramanian & Associates, Practising Company Secretaries, having office at "MurugesNaicker Complex, No.81, Greams Road, Chennai-600006 as the scrutinizer to scrutinise the e-voting process and poll at AGM in a fair and transparent manner.

VIII. The results of e-voting will be announced by the Company on its website [www.iykot.com](http://www.iykot.com) and also to stock exchanges at [www.bseindia.in](http://www.bseindia.in)

**NOTICE - 76TH ANNUAL GENERAL MEETING OF TULSYAN NEC LIMITED TO BE HELD THROUGH VIDEO CONFENCING OR OTHER AUDIO-VISUAL MEANS AND REMOTE E-VOTING FACILITY**

Shareholders may note that the **76th Annual General Meeting ("AGM")** of Tulsyan NEC Limited ("the Company") will be held on **Friday, September 15, 2023, at 11.30 a.m.** (IST) through Video Conferencing/Other Audio Visual Means ("VC/OAVM") to transact the business that will be set forth in the 76th AGM Notice, in compliance with General Circular No.10/2022 dated December 28, 2022, issued by the Ministry of Corporate Affairs (MCA) and Central SEBI/HO/CFD/PO-D/2/P/CIR/2023/4 dated January 5, 2023 issued by SEBI (hereinafter collectively referred to as "the Circulars").

In compliance with the aforesaid Circulars, the Notice of the 76th AGM along with the Annual Report of the Company for the financial year 2022-23 will be sent only through electronic mode to those Shareholders of the Company whose email IDs are registered with the Company/ Depository Participant(s). Shareholders may note that the Notice of AGM along with the Annual Report will also be available on the website of the Company at [www.tulsyanec.in](http://www.tulsyanec.in), on the website of the Stock Exchange i.e. BSE Limited at [www.bseindia.com](http://www.bseindia.com) and on the website of the Central Depository Services (India) Limited ("CDSL") at [www.evotingindia.com](http://www.evotingindia.com).

Shareholders may attend and participate in the AGM through the VC/OAVM facility only. The instructions for joining the AGM will be provided in the AGM Notice. Shareholders participating through VC/OAVM facility shall be reckoned for the purpose of quorum for the AGM under Section 103 of the Companies Act, 2013 ("the Act"). The facility for appointment of proxy will not be available for the AGM. Shareholders are requested to intimate changes, if any, pertaining to their name, postal address, e-mail address, telephone/mobile numbers, Permanent Account Number (PAN), mandates, nominations, power of attorney, bank details such as, name of the bank and branch details, bank account number, MICR code, IFSC code, etc., for receiving all communications including annual report, notices, instruction for e-voting and participation in the AGM through VC/OAVM etc., in electronic mode from the Company:

a) For shares held in electronic form: to their Depository Participant(s) (DPs).

b) For shares held in physical form: to the Company/Registrar and Share Transfer Agent in Form ISR-1 and other relevant forms, as prescribed by SEBI vide Circular No.SEBI/HO/MIRSD/MIRSD\_RTAMB/P/CIR/2021/655 dated November 3, 2021 read with SEBI Circular No.SEBI/HO/MIRSD/MIRSD\_RTAMB/P/CIR/2021/687 dated December 14, 2021.

In compliance with the provisions of Section 108 of the Act, read with Rule 20 of the Companies (Management and Administration) Rules, 2014 (as amended) and Regulation 44 of SEBI (Listing Obligations & Disclosure Requirements) Regulations 2015 (as amended), and MCA Circulars dated April 08, 2020, April 13, 2020 and May 05, 2020, the Company will be providing facility of remote e-voting to all its Members holding shares as on the Cut-off Date i.e. **September 08, 2023**, to cast their votes on all resolutions as set forth in the 76th AGM Notice. The manner of remote e-voting for members holding shares in demat mode, physical mode and who have not registered their email IDs, will be provided in the 76th AGM notice and the details will also be made available on the website of the Company at [www.tulsyanec.in](http://www.tulsyanec.in).

The remote e-voting period will commence on **Tuesday, September 12, 2023 (9:00 a.m. IST)** and will end on **Thursday, September 14, 2023 (5:00 p.m. IST) (both days inclusive)**. The remote e-voting module shall be disabled by CDSL for voting thereafter. The facility of casting votes by a member using remote e-voting as well as the e-voting system on the date of the AGM will be provided by CDSL.

All grievances connected with the facility for voting by electronic means may be addressed to Mr.Rakesh Dalvi, Sr. Manager, (CDSL) Central Depository Services (India) Limited, A Wing, 25th Floor, Marathon Futrex, Mafatlal Mill Compounds, N M Joshi Marg, Lower Panel (East), Mumbai - 400013 or send an email to [helpdesk.evoting@cdslindia.com](mailto:helpdesk.evoting@cdslindia.com) or call toll free no. 1800 22 55 33.

The Register of Members and Share Transfer Books of the Company will remain closed for a period of Seven days starting from **September 09, 2023 to September 15, 2023 (both days inclusive)** for the purpose of the 76th AGM.
